# Bandcamp embed replacement procedure

For this example, we will be using the album "Sing To God" by The Cardiacs:
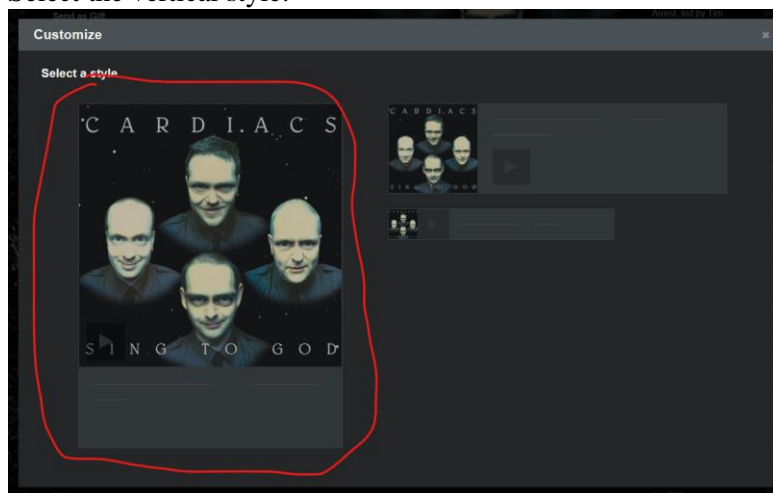

1. Navigate to the compilation's Bandcamp URL (e.g. https://alphabet-business-concern.bandcamp.com/album/sing-to-god-vol-i-ii).
2. Click the "Share/Embed" button:

3. Click "Embed This Album":

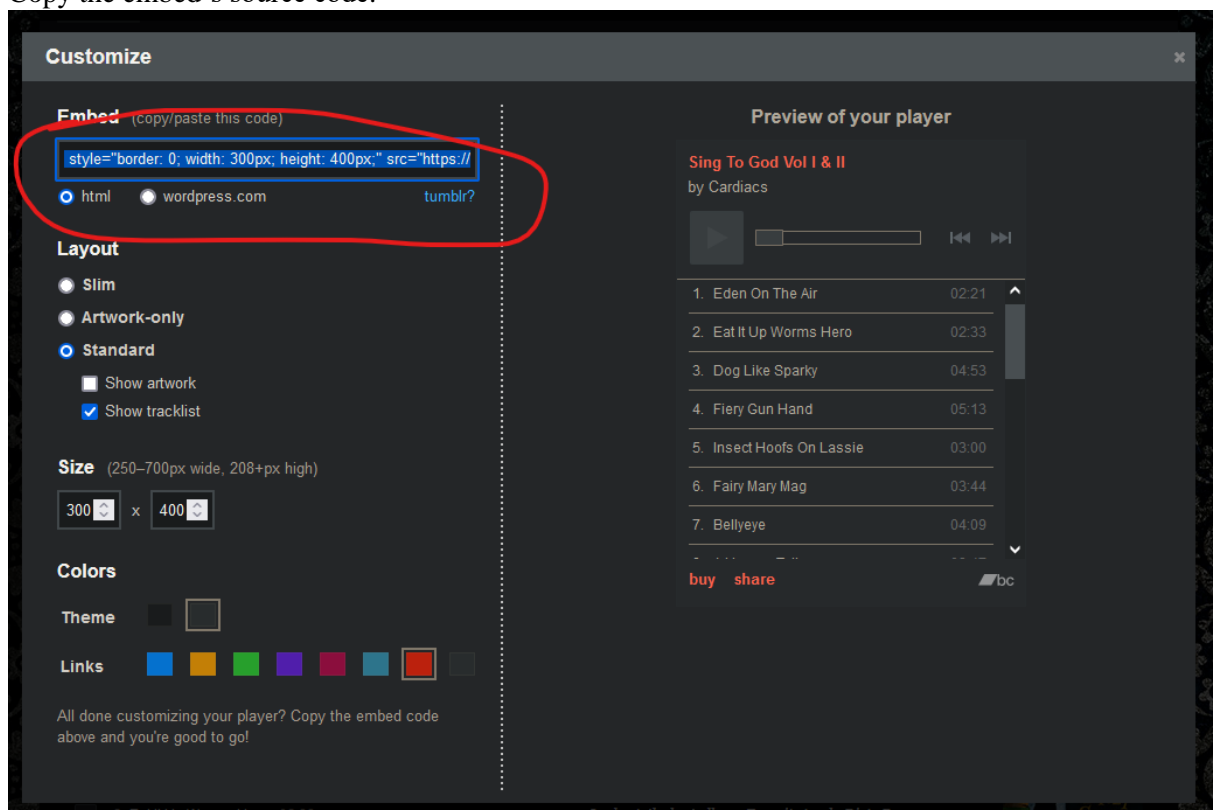

4. Select the vertical style:

5. Set the embeds settings as follows (note: feel free to change colour/theme):

*Protip: to ensure that the dimensions of the embed is 300 x 400px, you may have to press the *"specify a width"* button under Width settings.
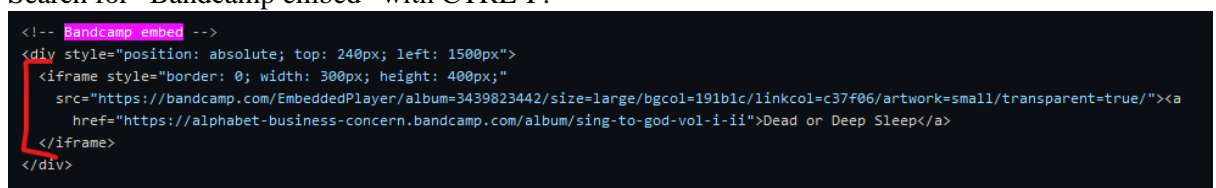

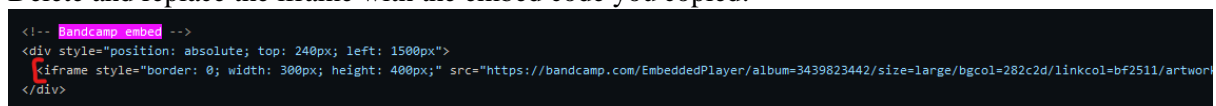

6. Copy the embed's source code:

7. Navigate to the site's "final" branch in the Github repository at:
   https://github.com/StarCarrMusic/starcarrmusic.github.io/tree/final/media

8. Open index.html and click the pencil (edit) button:

9. Search for "Bandcamp embed" with CTRL-F:

10. Delete and replace the iframe with the embed code you copied:

   *Protip: indentation/line width does not matter.

11. Scroll to the bottom of the page and commit (save) your changes. Provide a commit description if you want:
